

STANDING ORDER NO. Traff. Mgt./02/2024

PROCEDURE FOR ISSUANCE OF CHALLANS/NOTICES FOR TRAFFIC OFFENCES AND FILLING BEFORE THE COURT

CONTENTS

(A) SPOT CHALLAN:-

1. All traffic challans in Delhi are issued electronically by the Delhi Traffic Police. Since July 26, 2019, the Virtual Court system has been operational. It was decided that all challans except those that are compounded, involve vehicle impoundment or lack a mobile number, shall be sent to the Virtual Court via API (Application Programming Interface) the next day. Challans involving vehicle impoundment or missing mobile numbers should be sent by the challaning officer to their TIs immediately. TIs must record and forward these challans to the concerned court the following day. Challans must be submitted daily with Road Certificates and handed directly to the Ahalmad of the court under proper signatures, which should be recorded in the TI's office. Under no circumstances should challans be accumulated and sent in batches, nor should they be handed over to the Naib Court.
2. Devices used to issue traffic challans are known as Hand Held Devices (HHDs). Challaning officers log in to these devices with their IDs and passwords to issue challans. The DCP/T (HQ) distributes HHDs to circles as needed. Both the General Store at Traffic HQ and the concerned circles must maintain registers with the details of issued HHDs and SIMs. Circles should optimize the use of these machines by assigning them to staff in shifts and maintaining proper records.
3. It has been noticed that challaning officers sometimes unintentionally enter incorrect vehicle registration numbers, driving license numbers, or vehicle types. These details must be entered carefully and verified before submitting the challan through the e-challan HHD.
4. The mobile numbers of the vehicle owner and driver are mandatory for the further proceedings of the Virtual Court. Challaning officers must collect and verify these mobile numbers carefully, as prosecution information from the Virtual Court is communicated via SMS to these numbers.

5. It has been reported that some individuals use fake number plates on their vehicles. Challaning officers must verify the make, model, and colour of the vehicle against the registration number before submitting the challan and due legal action or discovery of fake number plates be also got initiated.
6. The e-challan app is frequently upgraded to add new features. All TIs must ensure that their staff download the latest version of the e-challan app on all HHDs.
7. Challaning officers must handle the e-challan HHDs carefully and get them repaired by authorized vendors as and when needed.
8. Pending challans in the HHDs, especially those not compounded or involving vehicle impoundment, cannot be forwarded to the Virtual Court. Therefore, challaning officers must check their HHDs before shutdown and push all pending challans to the main server using good internet bandwidth via SIM or Wi-Fi.
9. Challaning officers must submit a summary report generated through the e-challan machine to the concerned TI daily. The TI must ensure the preparation of a cash/bank book for compounded challans.
10. Disposal of challans by the regular court must be updated in the e-challan server by the concerned circle through the dashboard provided in the e-challan system.
11. **Cancellation or correction of e-challans:** If a challan is generated incorrectly due to technical issues, it must be corrected or canceled as follows:
 - a. The officer must record the issue in the Daily Diary on the same day and ensure appropriate communication it immediately.
 - b. An application for correction or cancellation must be submitted to the concerned DCP/Traffic (HQ). The application should be forwarded by the concerned DCP/Traffic Range on the same day via official government email (e.g., @nic.in, @gov.in) or by DAK.

It is essential to adhere to these timelines. If delayed, the challan will proceed to court and cannot be canceled.

(B) NOTICE/CHALLANS FOR VIOLATIONS CAPTURED THROUGH ELECTRONIC MONITORING & ENFORCEMENT SYSTEM:-

I. NPR Camera System (RLVD/OSVD):

1. Violations captured by NPR (Number Plate Recognition) cameras (RLVD/OSVD) shall be reviewed and approved by the Enforcement Command Centre at Delhi Traffic Police Headquarters. Critical parameters such as the type of prosecution, visibility of the vehicle number, and provability of the offence should be assessed.

2. An SMS notification of the violation shall be sent to the mobile number of the registered vehicle owner by the Computer Centre/Traffic. If the mobile number is unavailable, a printed notice of the offence shall be dispatched to the registered owner by the Notice Branch/Traffic.
3. Notices for offences punishable under Sections 183 and 184 of the M.V. Act must be served or sent to the violator/registered owner within 14 days from the violation date. Non-compoundable challans will be submitted to the Virtual Court (if the violator/owner's mobile number is available) or Regular Court (if the mobile number is unavailable) if the notice is not responded to within the specified time frame.
4. Notices for other offences must be delivered within 60 days. Challans for the Virtual Court will be submitted automatically by the Computer Centre; for the Regular Court, printed challans will be submitted by the Notice Branch through Road Certificates to the concerned court's Ahalmad.
5. If there is any objection to the alleged traffic violation mentioned in the notice, the violator/owner can submit his grievance on the Delhi Traffic Police website, via email, or in physical form. If the respondent's innocence is proven, the notice shall be canceled by the Enforcement Command Centre after approval from the concerned DCP/Traffic (HQ), provided it has not been submitted to the court. If it has been submitted, the respondent will be informed accordingly.

II. VoCA (Violation on Camera App):

1. The VoCA App, launched in 2018, is used exclusively by Delhi Traffic Police officials to prosecute specified traffic offences. The app link is provided by the Computer Centre/Traffic upon approval of a User Creation Form by the concerned Traffic Inspector of the Circle/Branch.
2. Violations captured through VoCA shall be reviewed and approved at the concerned Traffic Circle by assessing critical parameters such as the type of prosecution, visibility of the vehicle number, and provability of the offence.
3. The rest of the process remains the same as mentioned for the NPR camera system.

III. Traffic Sentinel App:

1. The Traffic Sentinel App, launched by the Delhi Traffic Police in December 2015, allows the general public to report specified traffic violations, assisting the traffic police in prosecuting offenders. The app is available on the Google Play Store for Android users and the Apple App Store for iOS users. Users may register on the app using their mobile number and a One-Time Password (OTP).

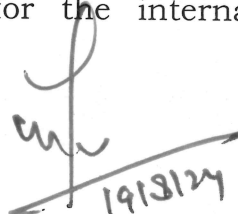

2. Violations reported through the Traffic Sentinel App shall be reviewed and approved by the Enforcement Command Centre at Traffic Police Headquarters by assessing critical parameters such as the type of prosecution, visibility of the vehicle number, and provability of the offence.
 3. The rest of the process remains the same as mentioned for the NPR camera system.
- (C) With a view to ensure improved public participation in reporting violations, extensive use of Social Media/Twitter handle of Traffic Police and through its website, awareness to public about the option to report violations through Traffic Sentinel App be ensured. These platforms be also used to raise awareness in public about the availability of options of raising objections and counter claims on challans/notices.

SUPERSESION CLAUSE

This Standing Order supersedes the previous Standing Order No. Traff. Mgt./02/2022 issued vide No. 49551-49700/Record Branch/PHQ dated 12.06.2022.
